

ALLIED PUMPS DEWATERING & WATER TRANSFER PUMPS

DEWATERING & WATER TRANSFER PUMPS

DEWATERING & WATER TRANSFER PUMPS

ALLIED PUMPS range of Dewatering and Water Transfer Pumps set the standard for open cut and underground mine dewatering and water transfer. Designed and engineered for the most robust and demanding mining applications, Dewatering & Water Transfer Pump systems are designed to deliver “best in class” efficiency, saving on energy costs.

The heavy duty range of Dewatering & Water Transfer pumps have been designed for applications such as mine dewatering, water transfer, water cart filling and flood water pumping.

With our large product range, Allied Pumps is able to select the right pump for the right application to deliver the highest efficiency possible.

Allied Pump Dewatering & Water Transfer range of pumps include the following features:

KEY FEATURES

- Run-Dry® mechanical seals
- Solid handling capability
- High suction lift capability up to 8.5m
