

Allied Pumps

Mining Capabilities

08 9350 1000 | alliedpumps.com.au

30+ Years of EXPERTISE

At Allied Pumps, we specialise in complete water pumping, treatment and storage solutions for the mining industry. Our products are fully customisable and built to withstand the harsh conditions of the outback.

PUMPING SOLUTIONS

- Heavy Duty Slurry Pumping
- Fire Water Pumping
- Dewatering and Water Transfer
- Process and Wastewater Pumping

TREATMENT SOLUTIONS

- Water Filtration Systems
- Potable Water Systems
- Sewage Treatment Plants
- Water Recycling and Reuse

STORAGE SOLUTIONS

- Galvanised Steel Tanks
- Glass Fused Steel Tanks
- Epoxy Coated Steel Tanks
- Cyclone Rated Options

For over 30 years Allied Pumps has delivered water pumping, treatment and storage solutions, specialising in CO-CREATION & COLLABORATION to meet each client's needs across Australia and worldwide.

Quailty
ASSURANCE

All our clients benefit from peace of mind, knowing we manufacture to the highest standard of quality in accordance with ISO 9001:2015.

OUR TEAM

Our team is committed to ongoing research and development to ensure we continue to deliver the high quality products, efficient technical support and impeccable customer service Allied Pumps is known for.

STOCK HOLDINGS

We have extensive stock holdings across Western Australia to ensure:

- Reliable deliveries
- Competitive prices, and
- An efficient after-sales service.

LONG-STANDING RELATIONSHIPS

Allied Pumps develops long-standing client relationships built on mutual loyalty and trust, maintaining an established, proven track record of exceptionally fast, effective, and dependable responses to every enquiry.

IN-HOUSE CAPABILITIES

- In-House Drafting & Engineering
- In-House Fabrication
- In-House Electrical & Mechanical Assembly

BOOSTER PUMP STATIONS
Skid-mounted pump stations designed for underground mine dewatering

BORE REINJECTION
For managed aquifer recharge on mine sites

STANDPIPES
High volume standpipes for fast filling and fast washing vehicles

SELF PRIMING DEWATERING PUMPS
Dry prime pumps engineered for the toughest applications

MINING SERIES FIRE PUMPS
Compliant to all Australian Standards, mine, site & client specifications

WATER STORAGE TANKS
For potable & non-potable applications; made from galvanised steel, glass fused steel, and more

BORE PUMPS
Submersible pumps, plus standard & permanent magnet motors from established brands

PUMP STARTER & CONTROL PANELS
Solar panels, telemetry & remote monitoring for SCADA integration

BORE RISING MAIN SYSTEMS
Continuous length with fibreglass, rigid, or flexible riser system

RAW WATER TRANSFER PUMPS
Capable of handling high volumes of untreated water

CLEAR WATER TREATMENT
Containerised modules engineered to withstand the harshest environments

SEWAGE, GREY & WASTEWATER TREATMENT
Scalable, modular, decentralised systems for remote applications

Bore Pump Systems

Packaged bore pump and headwork systems engineered for mine dewatering and water transfer, delivering best in class efficiency in the most rugged and demanding conditions.

KEY FEATURES

- Heavy Duty Galvanised Skid
- Trailer or Skid Mounted Generators
- Trailer or Skid Mounted Bulk Fuel Storage
- Bore Pumps from 4” to 14”
- Intelligent Control Panels and SCADA
- Rigid and Flexible Rising Mains

APPLICATIONS

- Mine Dewatering
- Water Transfer
- Bore Field Water Supply
- Remote and Off-Grid Sites
- Construction Dewatering

Dewatering Trailers

GENVAR-VSG™ trailers combine bore headworks with a plug-and-play design for fast installation and removal, keeping pumping infrastructure mobile and downtime to a minimum.

KEY FEATURES

- Mines Safety Regulations Compliant
- Plug-and-Play Power and Control Cabling
- Instrumentation Ready
- Compact Control Panel with HMI and Telemetry
- Pipework from 50 NB to 300 NB
- Lower Diesel Usage and Reduced CAPEX

OPTIONS

- Solar Battery Charging System
- Telemetry and Remote Monitoring
- Ultra Silent Noise Reduction
- Bulk Fuel Tank Connections
- Generator Sizes Up to 600 kVA
